

The Twelfth International Symposium of Quantitative Economics, 2023

July 7-9, 2023

The Twelfth International Symposium of Quantitative Economics, 2023 is scheduled to be held from July 7 to 9, 2023 in Qinhuangdao, China. The symposium will be structured around the theme of "Development and Transformation, Equity and Efficiency", focusing on new phenomena, new problems, new mechanisms and new models of the development in economies and world economies, and exploring the latest frontier theories and methods of quantitative economics and their applications in economics and finance. The symposium creates a high-level academic platform for global economics and finance scholars. In the symposium, distinguished domestic and overseas scholars will be invited to chair international frontier academic forums. The topics of the symposium include but are not limited to: macroeconomic econometric and quantitative analysis, microeconomic econometric and quantitative analysis, and financial market econometric and quantitative analysis.

The symposium received strong support from reputable journals including *Journal of Quantitative and Technical Economics*, *Journal of Quantitative Economics*, *China & World Economy*, and *International Review of Economics and Finance*. The organizer will establish an academic committee with the above journals to review the submitted papers anonymously and elect the best ones as the conference papers. The papers accepted by both the conference and the journals can directly enter the anonymous manuscript review process of the corresponding journals. Welcome your contributions and your participations.

Call for Papers

Welcome to submit unpublished papers to our conference through email: sljj@jlu.edu.cn. Please use PDF format (either in English or Chinese). The subject of the email is supposed to be named as "2023 Conference + Author's Name". Please be sure to include the following information in first page of your manuscript: author's name, organization, job title, contact number, mailing address, email address. If your paper wants to enter the anonymous review process for *Journal of Quantitative and Technical Economics*,

Journal of Quantitative Economics, China & World Economy, or International Review of Economics and Finance, please add the submission instruction for journal in the attachment to the submission email.

Submission Due: June 1, 2023.

Feedback: We will send the conference invitation letters to all the corresponding authors of the selected papers during June 5 to 10, 2023. Papers in English will be reviewed in time, and the invitation letter will be sent as soon as possible before June 10, 2023, so that authors can go through relevant procedures for attending the conference.
